(NO) Se til at boltene plasseres i midten av de avlange hullene i takplaten. Da kan man justere vinkelen på ovnen med 15 grader i hver retning etter at takplaten er festet til taket.

(FI) Varmista, että ruuvit ovat kattokauluksen soikeiden reikien keskellä. Näin voit säätää takan kulmaa 15 astetta kaikkiin suuntiin, kun kattokaulus on kiinnitetty kattoon.

(DE) Sicherstellen, dass die Bolzen in der Mitte der ovalen Langlöcher im Deckenkragen eingesetzt werden. Damit ist es möglich, den Winkel des Kaminofens um 15 Grad in jede Richtung anzupassen, nachdem der Deckenkragen an der Decke befestigt wurde.

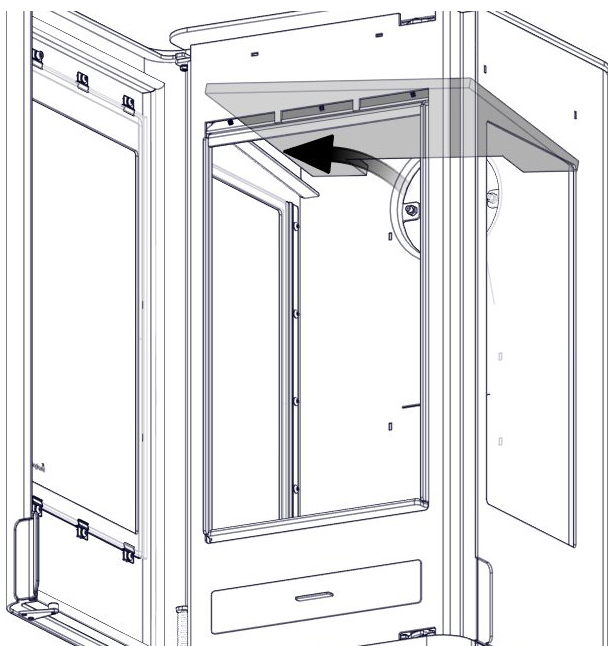

(FR) Assurez-vous que les boulons sont placés au milieu des trous oblongues dans le collet de plafond. Cela vous permettra d'ajuster l'angle du poêle de 15 degrés dans chaque direction une fois que le collet de plafond a été fixé à ce dernier.
